

Why Should I Attend?

- All NMMA Member manufacturers are required to be certified with annual inspections
- All NMMA Certified manufacturers are required to send at least one representative to this seminar every other year
- Learn about important changes to marine industry standards
- Discuss current certification issues with fellow boat builders, quality-control engineers and industry professionals
- Acquire valuable updated course materials, including the 2011 NMMA Model Year Requirements and the ABYC Standards Manual
- NMMA Compliance Specialist exam fee waived
